

Asbestos Specialists

No 2: Sealants

Sealants suitable for the encapsulation of low density/high fibre asbestos materials such as asbestos pipe and boiler lagging or sprayed asbestos insulation.

Product Self-setting cement and surfacing compound

LIMPET BD6 and LIMPET LD3

TAC Construction Materials Ltd, PO Box 22, Trafford Park,
Manchester, M17 1RU. Tel: 061 872 2181.

Product Self adhesive bandage (for painting)

T22

Idenden Adhesives Ltd, Blackwater Way Industrial Estate,
Ash Road, Aldershot, Hampshire, GU12 4DN. Tel: 0252 311608.

Product Liquid co-polymer membranes

ET 150

Idenden Adhesives Ltd (as above)

DECADEX FIRECHECK

Liquid Plastics Ltd, PO Box 7, London Road, Preston, Lancs,
PR1 4AJ. Tel: 0772 59781.

POLAROOFF FIREGARD

Plastics and Resins Ltd, Cleveland Road, Wolverhampton,
WV2 1BU. Tel: 0902 53215.

Note: Asbestos building boards have higher densities than lagging etc and, if in good condition, can be adequately sealed with ordinary household paints.

asbestos cement: anti-alkali primer and oil-bound finish or alkali-resistant paint throughout (eg p.v.a emulsion).

asbestos insulating board:

prime with dilute p.v.a (4 water - 1 p.v.a) and finish p.v.a or oil-bound paint.
